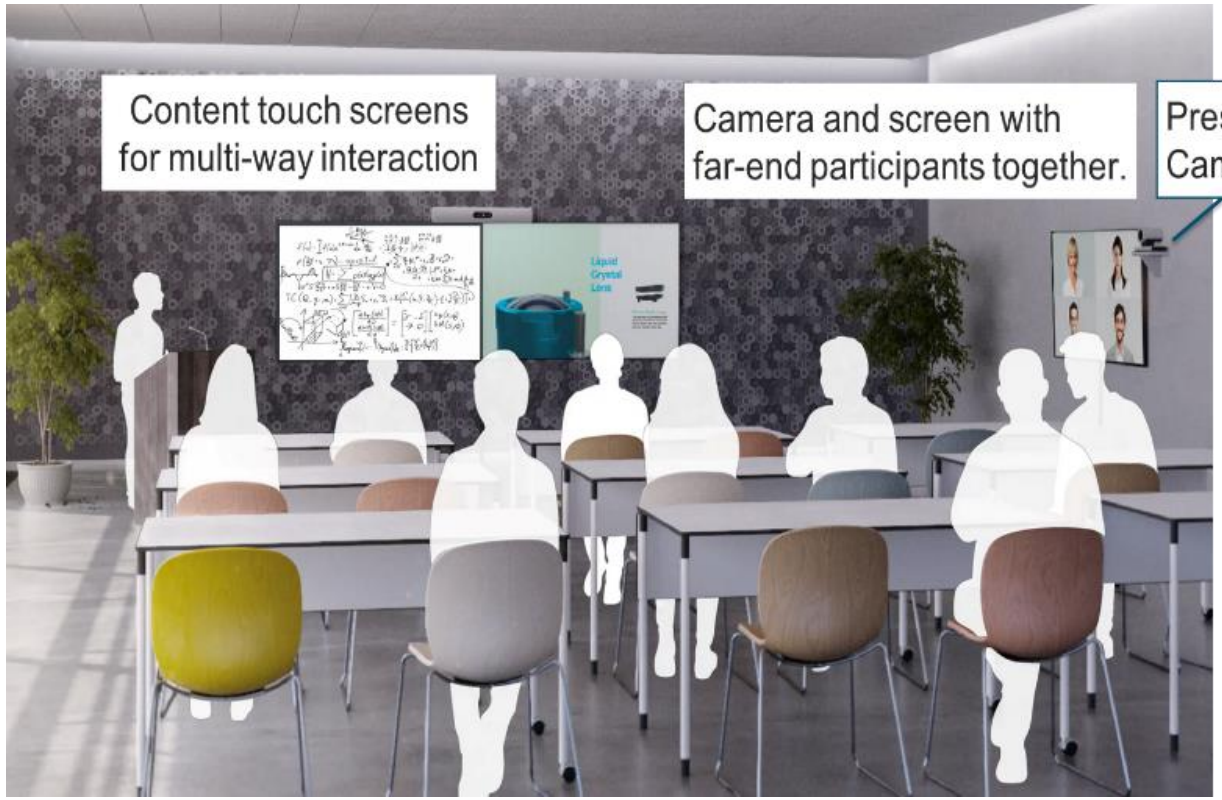
# More than talking heads: immersive experiences
## Hybrid classrooms engage local and remote students



Teacher sees, engages with local & remote students

Students work face-to-face on same content locally and remotely (content and context)

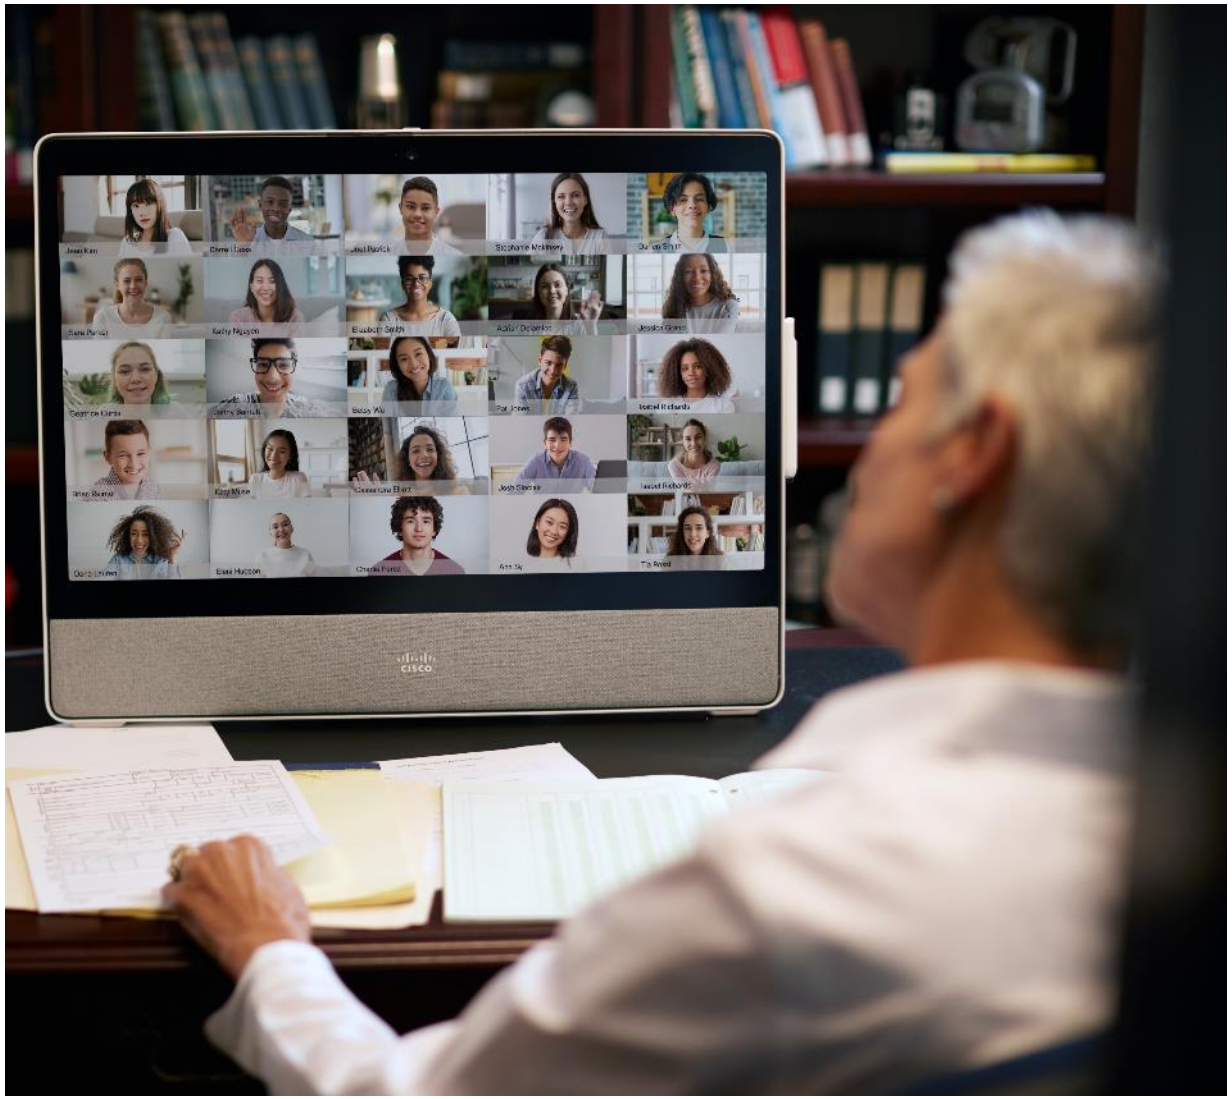
Immersive experiences – not just talking heads

- Full view of teacher interaction with Cisco Webex Presenter Track
- Content touch screen & multi-way interaction with Webex Board and Webex digital whiteboarding

© 2020 Cisco and/or its affiliates. All rights reserved. Cisco Confidential

# Safe and Secure Learning Experiences

## Lock the virtual classroom door



Expanded lobby security settings

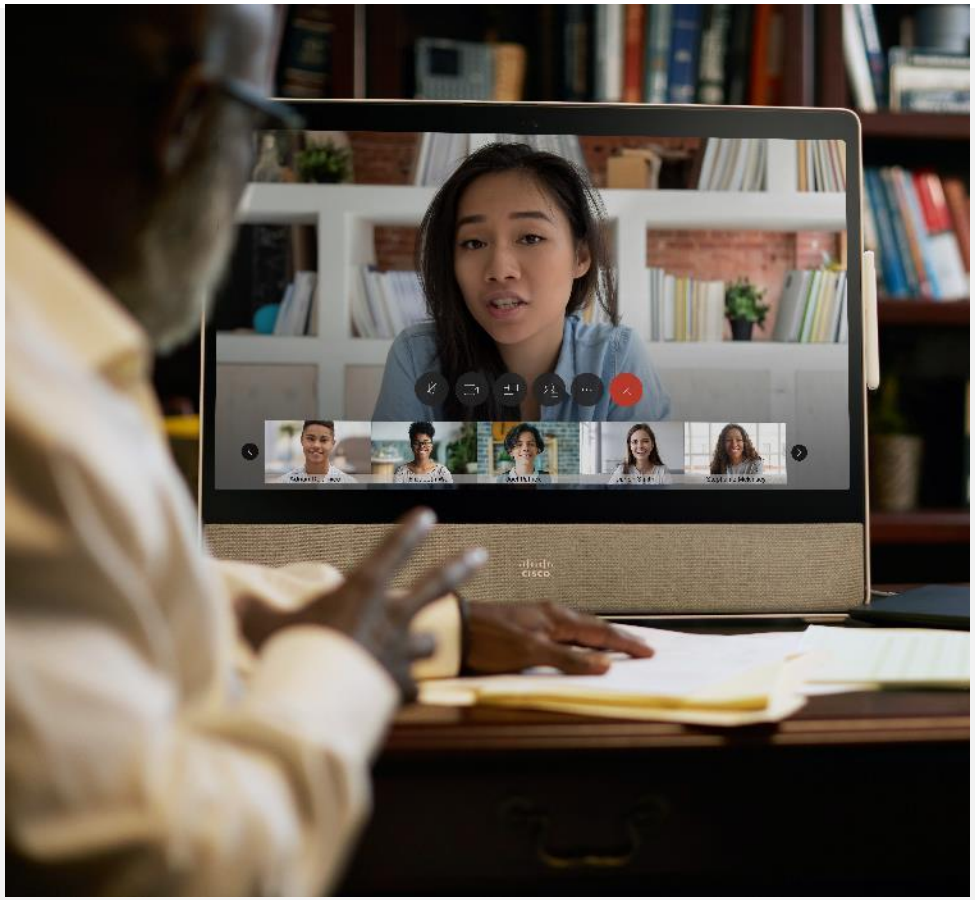
- Only signed-in users can join unlocked virtual classroom meetings directly
- Remove lobby bypass for unauthenticated users - Guests must be admitted by Teacher (host)
- Configure timer to auto lock the virtual classroom
- Configure timer to eject participants in lobby after set time
- Ultra Noise Cancellation
- Virtual background

Prevent AI Robots from joining virtual classroom meetings

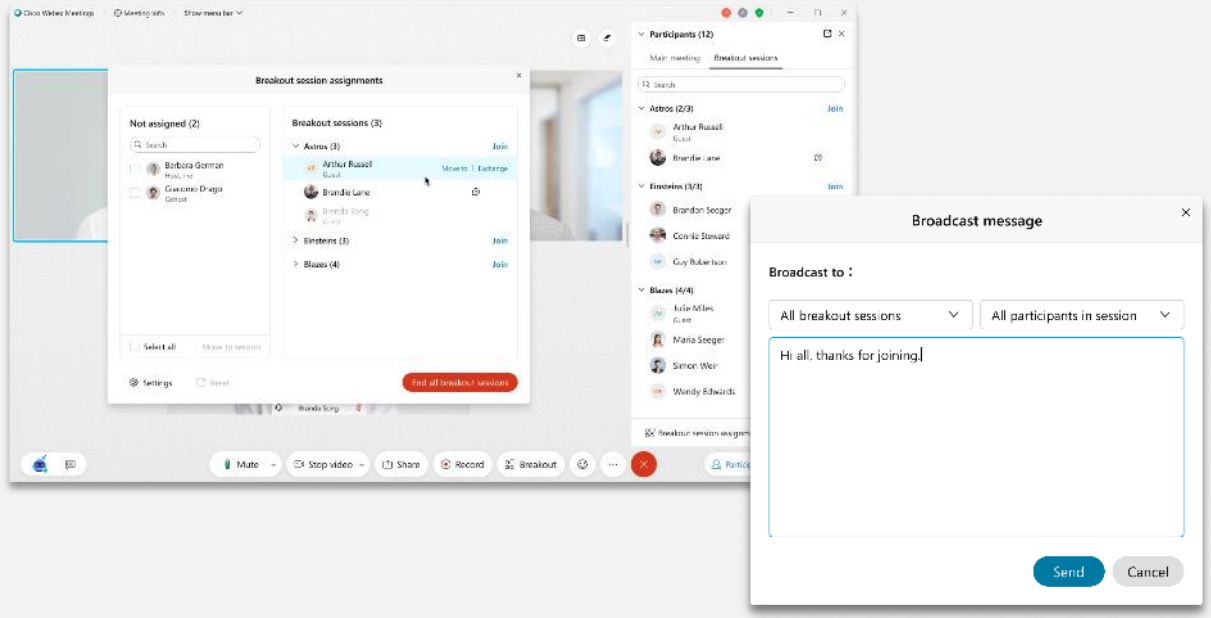
# More dynamic learning in small groups

## Webex enables virtual classroom video breakouts – predefined or manual

### Small groups see each other & share locally



### Flexible Breakout Control & Management



Pre-class prep & setup :

- Automatic or manual assignment
- Flexible breakout session options

In-session management:

- Move students, create add'l breakouts
- Check-in: Hop in and out of breakouts
- Broadcast message to one or all breakouts

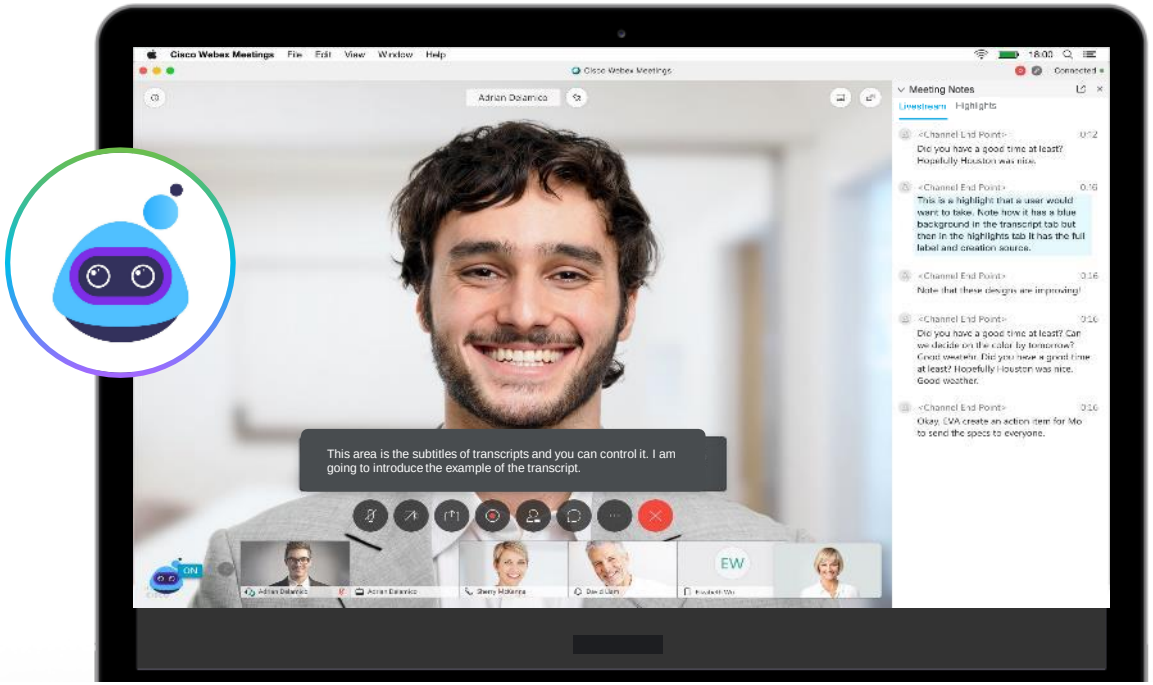
# Never miss a class

## Easily review class notes, highlights anytime



Webex Assistant captures classroom experience and automates note taking

- Easily access to recordings
- View class notes and transcripts
- Quickly scan class highlights

# Webex is a secure collaborative learning platform

- Ensuring that **scheduling and hosting class** is simple, easy, and secure
- Powerful **video breakout room** experience for teamwork
- **Immersive** and engaging experiences for hybrid classrooms
- **Security built-in** for virtual and physical classrooms
