Frank Gombault

Concepten voor het inrichten van Hybride virtual classrooms

inholland hogeschool

Hybrid virtual classroom

Een hybrid virtual classroom heeft als kenmerk dat er enkele studenten in de fysieke ruimte zijn en dat de andere studenten via schermen online aan de zelfde les deelnemen.

Wat voor verschillende concepten hebben we nu voor het inrichten van Hybride virtual classrooms.

Als we kijken naar de uitkomst van de enquete zien we oplossingen van 1000 euro tot aan 100.000 euro

Oplossing gericht op studenten thuis of studenten die samen in een ander lokaal zitten (connected classrooms) of beide.

Waar ligt de focus op bij het inrichten van de Hybride virtual classroom en hoe zie je dat terug in het ontwerp van de ruimte.
- Kennisoverdracht en instructie
- Groeps activiteiten
- Activerend onderwijs
